

General Guidelines

Codethon Rules and Guidelines

General Rules:

1. Team Composition:

- Each team must consist of exactly 3 participants.
- A participant can join only one team.

2. Eligibility:

- The competition is open to students from all years and all colleges.

Round 1: Online Presentation

1. Problem Statements:

- Problem statements will be shared with participants in advance.
- Teams must prepare their solutions and present them during the online round.

2. Date and Format:

- The online presentation round will be conducted on 21st January.
- Teams will showcase their solutions via a virtual platform.

3. Judging Criteria:

- Clarity of the solution.
- Innovation and creativity.
- Practicality and feasibility.

Final Round: On-Campus Hackathon

1. Duration and Venue:

- The final round will be a 6-hour hackathon held on campus.

2. Product Demonstration:

- Finalists must demonstrate their final product to the judges.
- Teams will receive a task to modify or improve their product during the hackathon to validate its authenticity and adaptability.

3. Judging Criteria:

- Functionality and completeness of the product.
- Ability to implement modifications efficiently.
- Creativity and innovation

4 Legitimacy Check:

- **Use of ChatGPT or any other AI tools is strictly prohibited.**
- **Any unfair means will lead to immediate disqualification.**

Additional Information:

Snacks:

Snacks will be provided during the final round.

Code of Conduct:

Teams are expected to adhere to ethical practices and respect fellow participants and organizers.

Note:

The organizers reserve the right to make changes to the rules and format, which will be communicated to the participants in advance.

Good luck and happy coding!
