About Event

"Shape The Web" is a UI/UX design competition where participants use Figma to replicate and create innovative website designs, testing their creativity and precision.

Design a user-friendly solution addressing the problem statement, focusing on functionality, **UI, and UX**.

Duration: 2 hour

Round 2

Replicate the website displayed on the projector.

Duration: 45 Min

Round 1

Rules

- Participants are expected to bring their own laptops with Figma installed, though PCs will be allotted to the team without laptop

- **Team Work:** If working in teams, each member must contribute equally. Judges may ask for clarifications on individual contributions.

- **Time Management:** Participants must submit their work strictly within the allocated time for each round. Late submissions may result in disqualification.

- **Professional Conduct:** Participants are expected to maintain professionalism, respect the organizers and fellow participants, and follow all instructions given during the hackathon.

- Judges' decision will be the final decision. No further arguments or interrogations will be entertained

Judging Criteria

Round 1 (45 minutes)

1. How close the website matches the references
2. Inclusion of all required documents

Round 2 (2 hours)

1. Innovative and visually appealing design
2. Alignment with assigned problem statement
3. Logical flow and usability of website design
4. Precision in design elements like alignment, spacing, and color schemes

Additional Rules

- Only Figma is allowed to use for redesigning the website

- Teams will be eliminated after 1st round based on performance

- Use of plugins in Figma is allowed and encouraged for efficiency and creativity

- The use of ChatGPT or any other AI tools for coding, designing, or problem-solving is strictly prohibited.

- Participants are prohibited from plagiarizing or copying from existing templates or projects.
